

Nature Scavenger Hunt

Head outside — a backyard, park or footpath will do — and see how many you can find. No collecting live things; just spot, tick and wonder.

- Something rough
- Something smooth
- A feather
- A seed or seed pod
- A flower with 5 petals
- Three different greens
- A leaf bigger than your hand
- An ant carrying something
- A spider web
- A gum nut
- A bird call you can copy
- Something older than you
- A smooth stone
- Something that's decomposing
- An insect with six legs
- A cloud shaped like something
- A plant growing in a crack
- Your favourite nature smell

Tip: visit the same spot next week and notice what has changed.

Loved this? It's a taste of **The Nature-Led Year** — 40 weeks of nature-led homeschooling that follows the Australian seasons. Find it at kidsbynature.com.au/planner.
